Subject: when creating checklists
Attachments: Imidacloprid_label_table_revw_cklist.docx; EPA-HQ-OPP-2008-0844-1619_content.pdf

Hi Janet,

Just a reminder to make sure that when you're making the checklists, that they are based on the ID not the PID. I saw one, imidacloprid, with the checklist based on the PID. The ID for that chemical is not out yet (you can check the PRD Access DB to see if a chemical has an ID out). I attached the files that I found in the Bus folder. I will go ahead and delete the checklist.

Thanks.

Julie
